

Title Template for Extended Abstract of ATEM'19 (for title, please center; use Arial 14)

First Author^{1*}, Second Author^{1*}, and Other Authors² (Times New Roman 11pt)

¹Japan Society of Mechanical Engineering, 35 Shinanomachi, Shinjuku-ku, Tokyo, Japan (Times New Roman 9pt)

²Department of Mechanical Engineering, Kikai University, 35 Shinanomachi, Shinjuku-ku, Tokyo, Japan

*Corresponding author's email

For the rest of the text, please use Times Roman (or Times New Roman) 10.

Introduction. This document is a template for preparing your extended abstract manuscript for the "Book of Abstracts of ATEM'15". Please read these instructions and follow the outline of this text.

Language. All manuscripts of extended abstracts must be in English.

Color. "Book of Abstracts" will be printed in black and white.

Length. One page of A4 size. Therefore, please compose your layout using the whole A4 page.

Page layout. The text must be 170 mm wide and 250 mm high. Do not place any text outside this area and please do not change the document setting from A4. The main body of the text is in two columns except the title, authors, affiliations, addresses and e-mail address.

Section Headings. Section headings are boldface and typed as part of the succeeding paragraph (like the section heading of this paragraph).

Page Numbers. Do not print page numbers.

Tables. Tables (style: Table 1, Table 2, ...) should be presented as part of the text, but in such a way as to avoid confusion with the text. The caption should be placed above the table. Units in tables should be given in square brackets [meV].

Figures. Figures (style: Fig. 1, Fig. 2, ...) also should be presented as part of the text, leaving enough space so that the caption will not be confused with the text. The caption should be self-contained and placed below the figure. Utmost care must be taken to insert the figures in correct alignment with the text.

If authors use tables or figures from other publications, they must ask the corresponding publishers to grant them the right to publish this material in their paper.

Equations. Equations (style: Eq. (1), Eq. (2),...) should be indented. The equations have to be numbered sequentially, and the number put in parentheses at the right-hand edge of the text as shown below:

$$\varphi(\xi) \frac{\partial^2 u(\xi, \tau)}{\partial \xi^2} + 2 \frac{d\varphi(\xi)}{d\xi} \frac{\partial u(\xi, \tau)}{\partial \xi} = \frac{\partial^2 u(\xi, \tau)}{\partial \tau^2} \quad (1)$$

Emphasis. Use *italics* for emphasizing a word or phrase. Don't use boldface typing or capital letters except for section headings.

MSWord document styles. The extended abstract should be prepared in the electronic form as a standard document format DOC (or DOCX). MS Word should be used. The extended abstract must be submitted in Portable Document Format (PDF; less than 10MB). No other formats will be accepted.

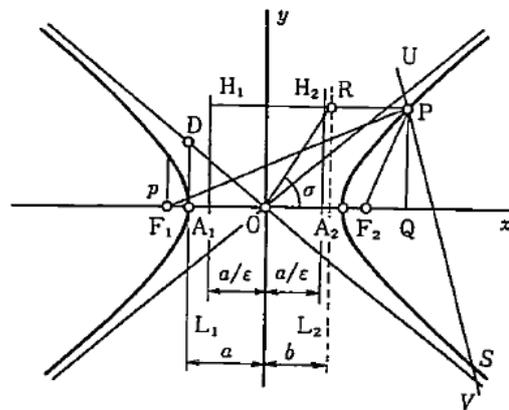

Fig. 1 Sample of a clear figure.

Full-length Paper Publication. After the conference, "Special Issue of ATEM'15" will be published in *Mechanical Engineering Journal* that is an international journal of the Japan Society of Mechanical Engineers (JSME). You can submit a full-length paper to the special issue after the conference. The papers accepted through peer reviews will be published *free of charge*.

References. References should be indicated in the text with superscript numbers⁽¹⁾ in parentheses. All references should be written in English, and should be given in a list at the end of the text.

- (1) Takeuchi, Y., *Trans. JSME C*, **71**, (2005), 1-4.
- (2) Ahrendt, W. R. and Taplin, J. F., *Automatic Feedback Control*, (1984), 12, McGraw-Hill.
